For TP POC

1. Document Portal: Azure OpenAI endpoint
3. Video Conferencing: Azure Resource Management, Azure App Service

Open-house POC

We are still in the process of trying to host on Azure

Thanks,

1. I just need a draft from you and then I can estimate how complete it is to the "submission" level.
2. Or I can help to polish a bit for submission.
3. For your second point, I already forgot what I shared. No matter what, I want to get the file tonight so that I can process at submit it by tomorrow noon. For the rest (e.g. extension), I can write to the conference secretary for extra arrangement.

p.s. when will you all landed Glasgow?

Hi Prof,

Hope you're feeling better. In regard to this ICVARS, the team is already working on the paper and would be ready for your feedback.

Also, you mentioned on the Open House briefing day with the 3 of us that, you would be able to get extension with the Birmingham Staffs and told us the deadline will most probably be on the 3rd week of March. Can we check if that is still happening?

Thank you,
Fawaz

1. Correct; prototype 3 chat room will go to the track Interactive Technologies, and User Interface Design
2. Sub-team labour division must be clearly assigned, and inform me the assignment by next Wednesday:
 - a. ICVARS, max 4 students.
 - b. Microsoft, max 6 students. (if more than that, we should spilt the productions into more than one writing; contribution from each person require a clear statement)
3. I will link up the 2nd new comer with Chris in a new loop
